Business Process Management (BPM) has become a widely appreciated approach for improving operational efficiency and product/service quality.

In the Bachelor Winter School on Business Process Management you will gain a comprehensive understanding of the contemporary state-of-the-art in BPM.

Topics covered in the course include
- Introduction to BPM
- Methods along the BPM lifecycle
- Process-aware information systems
- Alignment of BPM with corporate strategy
- Governance of BPM programs and projects
- Human factors in BPM
- Culture in BPM

Important dates
